

I would like to sing the praises of Joey Stuckey as an event inspirational/motivational speaker. I work as the middle school campus minister at Mount de Sales Academy in Macon, GA. As part of my duties, I am responsible for planning the student retreats. Joey has graciously come to two of our 8th grade retreats. He not only performed, but he also took time to share his triumphant story with them.

From the first word he spoke, he had his audience spellbound which is no mean feat with a room of 92 thirteen year-olds. The students listened intently as he detailed the path his life has taken. Joey candidly spoke of his disability in both a poignant and humorous manner instantly putting the students at ease. When the floor was opened to questions, the kids clamored to have their questions answered. They were truly moved by his words and impressed with his zeal.

Joey ended the day by offering a concert that had each of the students dancing in their seats. Even though he performed at the day's end, the students were willing to stay past the dismissal time in order to drink him in.

I would highly recommend Joey Stuckey as a motivational speaker for any age group. He is exceptionally talented as well as humble. I have enjoyed getting to know Joey, and look forward to working with him in the future.

Sincerely,

Carla Barwick, middle school campus minister, Mount de Sales Academy
